MEMORANDUM FOR ALL INSTALLATION PERSONNEL

FROM: 165 AW/CC
CRTC/CC

SUBJECT: Environmental Policy Statement

1. At Savannah/Hilton Head IAP Air National Guard Base protecting the environment is one of our highest priorities and will be a major factor in decision making. The leadership at this installation is dedicated to continued improvements in our processes to prevent and reduce waste generation. Personnel permanently and temporarily assigned to the installation will maintain compliance with federal, state, and local environmental laws and regulations as well as Executive Orders and U.S. Air Force instructions and guidance.

2. Installation activities include operation and maintenance of C-130 aircraft with the support of corrosion control, aerospace ground equipment, vehicle maintenance, administrative functions, and facilities maintenance. In addition, the Combat Readiness Training Center (CRTC) operates at this installation and is responsible for hosting visiting units for training from the Air National Guard, U.S. Air Force, and other services. In all of the installation's activities we will seek to:

- a. Promote the conservation and sustainable use of natural and manmade materials;
- b. Minimize environmental pollution and waste;
- c. Build environmental concerns into all policies, programs and missions;
- d. Integrate environmental information into all levels of management;
- e. Achieve continuous improvements in environmental performance over and above regulatory and legislative requirements; and
- e. Work in partnership with all stakeholders to promote waste reduction.

3. Both the Wing and CRTC have achieved a commendable environmental record within the Air National Guard. Through continued emphasis on being good stewards of the environment that we all share, we demonstrate that we are good neighbors and citizens. This environmental policy is made available to the public through public notices such as posting on the Wing's public website.
